CLINIC = REVERIE

The Salcedo Village clinic is REVERIE Aesthetic and Hair Center. Iconique is the brand whose landing page handles bookings. When clients name a clinic in reviews, they should say Reverie, not Iconique.

HOW TO USE

- Send 2-3 examples (not all 20) to each client
- Tell them: "Here are a few examples - write yours in your own words"
- Spread reviews over 60-90 days, never all in one burst
- Mix services across the reviews you collect
- Coach for personal details (their job, brow shape, wedding date)
- Accept short reviews - they look more real
- Ask for a photo attached when possible

DON'T

- Have clients copy-paste verbatim (Google detects duplicates)
- Review-swap with other businesses
- Ask non-clients to review
- Offer discounts for reviews (against Google policy)

----- REVIEW 1 - Microblading, young professional -----

Microblading game changer. My brows were patchy from years of overplucking, but Kate took her time mapping the shape to my face before she touched a blade. The procedure hurt less than I expected. Healed result is real hair strokes, not blocky tattoo brows. Already booked my touch up. Found her at Reverie in Makati.

Keywords: microblading, Reverie, Makati, Kate

----- REVIEW 2 - Powder brows, busy mom -----

Mom of two so my mornings are a blur. Got powder brows with Kate at Reverie after my friend kept raving about her work. Best decision in months. I save 15 minutes every morning not filling in my brows. Kate matched the color to my hair and the soft ombre fade looks natural even up close. She walked me through the aftercare in detail. Healed at 6 weeks and the color is exactly where I wanted it.

Keywords: powder brows, Reverie, Kate, ombre

----- REVIEW 3 - Lip blushing, first-timer -----

So nervous about getting permanent makeup but Kate made me feel calm the whole time. Did lip blushing with her in November at the Reverie clinic. Color matches my natural lip tone but a few shades richer. Healing took about 10 days. Peeling stage was a bit weird but she warned me ahead of time. Final result looks like a permanent lip stain. No more reapplying

lipstick during meals. Booking eyebrow embroidery next.

Keywords: permanent makeup, Reverie, lip blushing, eyebrow embroidery, Kate

----- REVIEW 4 - Lip blush touch-up, repeat client -----

Came back to Kate for my lip blush touch up after 2 years. Color held up well even before the refresh. She remembered my preference for warmer tones and added a small amount of pigment to deepen the cupid's bow. Reverie's location at Plaza Royale is convenient since I work nearby in Makati CBD. Kate is the only artist I trust with permanent makeup.

----- REVIEW 5 - Powder brows, correction case -----

Overtweezed my brows in high school and they never grew back. Tried microshading at another studio first and hated the result. Found Kate on Instagram and booked powder brows at Reverie. She corrected the shape from my previous botched work and built up the sparse areas with soft pigment. Looks like I wear brow powder every day. Three weeks healed and my husband only noticed because I pointed it out.

Keywords: microshading, powder brows, Reverie, Kate

----- REVIEW 6 - Classic lash line, contact lens wearer -----

Wear contacts daily and eyeliner used to smudge by lunch. Tried Kate's classic lash line treatment. She placed the pigment between the lashes so it looks like dense lashes, not a drawn on line. Subtle but my eyes look more defined. Procedure took an hour and the discomfort was manageable. Best 7,990 pesos I've spent on beauty in years. Reverie's studio is spotless too.

----- REVIEW 7 - Ombre brows, correction from previous studio -----

Had ombre brows done at a different Makati salon in 2023 and they faded patchy and turned reddish within a year. Booked a correction with Kate after stalking her healed work on IG. She used a different pigment system and split the color into two sessions to make sure it stayed true. Six months in and the color is still neutral brown. Worth driving to Salcedo Village for.

----- REVIEW 8 - Bridal package, brows + lips -----

Got my brows and lip blush done by Kate two months before my wedding and I cannot tell you how much it saved me on the day. No makeup artist needed for brows and my lip color was set from morning getting ready through the reception. Kate scheduled my appointments so everything healed in time for photos. Reverie has the right vibe for bridal prep, clean and calm. Bride approved.

Keywords: brows, lip blush, Reverie, Kate, bride

----- REVIEW 9 - Powder eyebrows, subtle look -----

Wanted something subtle. Didn't want anyone to know I had work done. Kate did my powder eyebrows in a soft ash brown that matches my hair color. Three coworkers asked what changed about me and none of them guessed brows. That's the look I wanted. Booking permanent eyeliner with her next month. Reverie in Salcedo Village is where you'll find her.

Keywords: powder eyebrows, Reverie, Salcedo Village, permanent eyeliner, Kate

----- REVIEW 10 - Microblading touch-up -----

Returned to Kate for my microblading touch up after 18 months. She refreshed the strokes and added a few extra at the tail where the pigment had faded most. Same quality as my first session. Booking process was smooth. Kate is consistent and that's why I keep coming back. Plaza Royale is also easy to get to from the BGC side.

----- REVIEW 11 - Microblading, scar coverage from old tattoo -----

Got a tattoo removed from my forehead a few years ago and the brow above it never grew back the same. My wife found Kate on IG and pushed me to try microblading. I was skeptical. Kate matched the strokes to my existing brow hair and kept it masculine. No arch, no high tail. Co-workers haven't noticed I had anything done. They say I look less tired. Reverie was discreet and professional.

Keywords: microblading, Reverie, Kate

----- REVIEW 12 - Laser removal of old amateur tattoo -----

Got an amateur eyebrow tattoo when I was 22 (don't ask). Lived with it for 15 years before booking laser removal with Kate. Three sessions in and the old pigment is 80% gone. She walked me through what to expect at each stage and didn't oversell results. Honest assessment, fair pricing. Will be back for session four. Plaza Royale location is a quick drive from Rockwell.

----- REVIEW 13 - Powder brows, thinning and graying -----

Turned 55 this year and my brows have been thinning and going grey for the past decade. Felt strange about getting permanent makeup as a guy but Kate at Reverie made me comfortable from the first message. We went with soft powder brows in a brown that blends with my remaining hair. My golf buddies asked if I started using a beard pencil. Subtle, masculine, functional. Done right.

Keywords: permanent makeup, Reverie, powder brows, Kate

----- REVIEW 14 - Eyebrow embroidery, alopecia -----

Have alopecia areata. Lost both brows two years ago and got tired of penciling them on every morning. Kate did eyebrow embroidery for me at her studio in Makati and the result looks like actual hair. She took her time on the shape because I needed her to build everything from scratch. Six weeks healed and I haven't touched a brow pencil since. Life-changing for guys dealing with hair loss.

Keywords: eyebrow embroidery, Makati, Kate

----- REVIEW 15 - Lip neutralization, post-smoking -----

Smoked for 20 years and my lips were dark and uneven even after quitting. Heard Kate did lip neutralization at Reverie and booked a consultation. She explained the process, picked a natural color that matched my skin tone, and worked in two sessions to even out the pigmentation. My lips look like they did in my 20s. Wife noticed first. Worth every peso.

Keywords: lip neutralization, Reverie, Kate

----- REVIEW 16 - Microblading, scar through brow -----

Had a bike accident in college that left a scar through my left brow. Hair never grew back through it. Lived with the gap for years until my barber mentioned PMU could fix it. Kate at Reverie filled in the scar area with microblading strokes that match the rest of my brow. Most people don't notice the scar anymore. Healed at 5 weeks and the result is perfect.

Keywords: PMU, microblading, Reverie, Kate

----- REVIEW 17 - Classic lash line, older man -----

In my 60s and my lashes have thinned out a lot. Wife got hers done by Kate and suggested I try the classic lash line treatment. Wasn't sure about it as a guy but the result is subtle. Looks like I have thicker lashes, not eyeliner. Took an hour, manageable discomfort, and Reverie's studio is clean and private. Booking my touch-up.

Keywords: classic lash line, Reverie, Kate

----- REVIEW 18 - Microblading, young executive -----

30 years old, work in finance, wanted defined brows without looking like I had work done. Kate did microblading with a masculine shape. Straight, no arch, thicker at the front. Nobody at work commented except to ask if I changed my haircut. The look I wanted. Booking through Reverie was straightforward and Kate is direct and skilled.

Keywords: microblading, Reverie, Kate

----- REVIEW 19 - Powder brows, post-chemo recovery -----

Lost my brows during chemo treatment last year. Even after my hair grew back, the brows came in patchy and uneven. Kate did powder brows and matched the color to my new hair. The result looks like brows I had before treatment. She was patient and let me take breaks. Reverie was welcoming and didn't make me feel out of place as a male client.

Keywords: powder brows, Reverie, Kate

----- REVIEW 20 - Laser removal + redo -----

Got eyebrow PMU done in 2019 at a different studio. They went too dark and too thick. Looked like I drew them on with a Sharpie. Booked laser removal with Kate at Reverie to fade the old work, then she redid them with proper microblading. Three sessions of laser plus the new application took six months total. Worth the time. My brows look natural for the first time in years.
